**ENDOSCOPIC ACCESSORIES**

**CYSTOSCOPY ACCESSORIES**

- We are leading manufacturer of Cystoscope Sheaths which design to perform all cystoscope Procedures. Cystoscope sheath comes with obturator. Cystoscope sheath also called as Ureteroscope Sheath, Cystoscopic Sheath.

**FEATURES:**
- Endoscopic imaging support.
- Good Locking System.
- Tapered ends and assist in penetration.
- Durable, Safe and sterile instruments for each patient.
- Compatible with all cystoscopes.
- Allows greater flexibility.
- With 2 fixed stopcocks.
- Allows greater flexibility.
- Compatible with Karl STORZ.

**SINGLE CHANNEL CYSTOSCOPE BRIDGE**

- Single Channel Cystoscope Bridge.
- Single Channel Cystoscope Bridge provides extra Instrument channel for Cystoscopic Procedure.
- Cystoscope Bridge also called as Telescope Bridge.

**FEATURES:**
- Designed to provide excellent utility.
- Durable and Highly compatible.
- Advanced configuration.
- Autoclavable.
- Compatible with Karl STORZ and Richard Wolf.
ENDOSCOPIC ACCESSORIES

DOUBLE CHANNEL CYSTOSCOPE BRIDGE

- Double Channel Cystoscope Bridge provides two extra Instrument channel for Cystoscopic Procedure.
- Cystoscope Bridge also called as Telescope Bridge.

FEATURES:

- Designed to provide excellent utility.
- Durable and Highly compatible.
- Advanced configuration.
- Autoclavable.
- Compatible with Karl STORZ and Richard Wolf.

LITHO BRIDGE

- Litho Bridge is use with Pneumatic Lithotripter for bladder stone Fragmentation.
- Litho Bridge is compatible with 23.5 Fr or 25 Fr Cystoscope Sheath.
- 4 mm 30 Degree Telescope Is used during Bladder Stone Fragmentation Procedure.
- Litho Bridge also called as Pneumatic bridge.

FEATURES:

- Provide excellent utility.
- Highly compatible with Cystoscopic Sheath.
- Durable.
- Advanced configuration.
- Autoclavable.
- Compatible with Karl STORZ and Richard Wolf.
ENDOSCOPIC ACCESSORIES

OPTICAL BIOPSY FORCEPS

- Optical biopsy forceps is used for tissue identification by optical analysis and biopsy sampling at a site within the body.
- Optical Biopsy Forceps having small diameter sheath and is provided with an integrated bridge.
- Optical Biopsy Forceps is also called as Optical Rigid Biopsy Forceps or Endoscopic Bopsy Forceps.

**FEATURES:**
- Highly reliable.
- Durable.
- Improved quality parameters.
- Compatible with Karl STORZ and Richard Wolf.

STONE CRUSHING FORCEP

- Stone Crushing Forcep is used to remove bladder stone.
- It is compatible with 23.5 Fr or 25 Fr Cystoscopy Sheath.
- 4mm 30 Degree telescope will be attached with Stone Crushing Forcep.
- Stone Crushing Forceps also called as Gallbladder Stone Crushing Equipment, Urology Stone Crushing Forceps.

**FEATURES:**
- Provide excellent utility.
- Advanced configuration.
- Autoclavable.
- Highly Compatible.
- Compatible with Karl STORZ and Richard Wolf.
STONE CRUSHING FORCEP SET

- Stone Crushing Forcep SET Contains Stone Crushing Forcep and 25 Fr Cystoscopy Sheath.
- Stone Crushing Forcep is use to remove bladder stone.
- 4mm 30 Degree telescope will be attached with Stone Crushing Forcep.
- Stone Crushing Forceps also called as Gallbladder Stone Crushing Equipment, Urology Stone Crushing Forceps.

FEATURES :

- Provide excellent utility.
- Advanced configuration.
- Autoclavable.
- Highly Compatible.
- Compatible with Karl STORZ and Richard Wolf.

STONE PUNCH SET

- Stone Crushing Forcep is use to remove bladder stone.
- Stone Punch Urology is also called as Stone Punch SET, Mauermayer Stone Punch with optchurator.
- Stone Punch SET are made of high quality stainless steel.

FEATURES :

- Corrosion resistance.
- Fine Finish.
- Longer Life.
- Easy To Use.
- High Performance.
ENDOSCOPIC ACCESSORIES

FLEXIBLE BIOPSY FORCEPS

- Flexible biopsy forceps with movable cup-shaped jaws, used to obtain biopsy specimens by introduction through a specially designed endoscope.
- Flexible Biopsy Forceps are made of high quality stainless steel to provide physicians with a product of high longevity and a smooth cup operation in any situation.
- Flexible Biopsy Forceps is also called as Flexible Cystoscopy Biopsy Forceps, Reusable Flexible Biopsy forceps and Flexible Cup Biopsy Forcep.

FEATURES:

- Superior cutting performance.
- Less bleeding.
- Reusable Flexible Biopsy forceps.
- Autoclavable.

STENT REMOVING FORCEPS

- Stent Removing Forceps is designed for the easy removal of stents.
- Stent Removing Forceps is also called as Flexible stent removing Forceps, Double J stent Removal Forceps, Ureteral.
- Stent Removal Forceps and Flexible Cystoscopic stent Removal.

FEATURES:

- Reusable Stent removal Forceps.
- Strong Grasping.
- Autoclavable.
- Alligator jaw for strong grip.

ENDOSCOPIC ACCESSORIES

**URS ALIGATOR FORCEP**
- URS Alligator Forcep used for the retrieval of fragmented stones from ureteral and renal pelvis after performing Lithoclast procedure.
- URS Alligator Forcep is also called as URS Grasping Forcep, Stone grasping forcep for Ureteroscope.

**FEATURES:**
- Durable.
- Easy to use.
- Anti-corrosive.
- Smooth finish.
- High performance.

**URS TRIPRONGE FORCEP**
- URS Tripronge Forcep used for the retrieval of fragmented stones from ureteral and renal pelvis after performing Lithoclast procedure.
- URS Tripronge having 3 Jaw which gives more grip over the stone.

**FEATURES:**
- Durable.
- Easy To Use.
- Anti-Corrosive
- Smooth Finish.
- High Performance.

**URS FLAT JAW FORCEP**
- URS Flat Jaw Forcep used for the retrieval of fragmented stones from ureteral and renal pelvis after performing Lithoclast procedure.

**FEATURES:**
- Durable.
- Easy to use.
- Anti-corrosive.
- Smooth finish.
- High performance.

**PCNL ALLIGATOR FORCEP**
- PCNL Alligator Forcep Used for the retrieval of fragmented stones from kidney after performing Lithoclast procedure.
- PCNL Alligator Forcep is also called as PCNL Stone retrieval Forcep.

**FEATURES:**
- Precise design.
- Rugged.
- Fine Finish.
- Longer Life.

PCNL PEANUT JAW FORCEP

- PCNL Peanut Jaw Forcep Used for the retrieval of fragmented stones from kidney after performing Lithoclast procedure.
- PCNL Peanut jaw Forcep is also called as PCNL Stone retrieval Forcep.

FEATURES:
- Anti-corrosive.
- Smooth finish.
- High performance.

ENDOSCOPIC ACCESSORIES

PCNL FLAT JAW U FORCEP

- PCNL Flat Jaw U Handle Forcep Used for the retrieval of fragmented stones from kidney after performing Lithoclast procedure.
- PCNL Flat Jaw U Handle Forcep is also called as PCNL Stone Retrieval Forcep.

**FEATURES:**
- Precise design.
- Reliable.
- High performance.

ALKINE TELESCOPIC METAL DILATOR SET / PCN METAL DILATOR SET

- Alkine Telescopic Metal Dilator SET is used in dilation during PCNL Procedure.
- It comes along with Guide Rod.
- Alkine Telescopic Metal Dilator SET is also called as PCN Metal Dilator SET.

**FEATURES:**
- Durability.
- Optimum Finish.
- Reliable Nature.
- Anti-corrosive.
ENDOSCOPIC ACCESSORIES

OPTICAL URETHROTOME SHEATH

- Optical Urethrotome Sheath is used to incision of the Urethra during Urethrotomy procedure.
- 21 Fr Optical Urethrotome Sheath is used in Urethrotomy Procedure.
- Optical Urethrotome Sheath comes with Obturator.

FEATURES:
- Good Locking System.
- Tapered ends and assist in penetration.
- With 2 fixed stopcocks.
- Precise design.
- Anti-corrosive.

OPTICAL URETHROTOME SHEATH WITH HALFMOON

- Optical Urethrotome Sheath is used to incision of the Urethra during Urethrotomy procedure.
- 21 Fr Optical Urethrotome Sheath is used in Urethrotomy Procedure.
- Optical Urethrotome Sheath comes with Obturator.

FEATURES:
- Good Locking System.
- Tapered ends and assist in penetration.
- With 2 fixed stopcocks.
- Precise design.
- Anti-corrosive.

ENDOSCOPIC ACCESSORIES

OTIS URETHROTOME

- An Otis urethrotomy is the blind transurethral incision of the urethra by an Otis urethrotome.
- After insertion of the Otis urethrotome, the urethra is dilated to the desired width and a blade cuts the stretched urethra at the 12 o’clock position.
- OTIS Urethrotome is also called as Blind Internal Urethrotomy.

FEATURES:

- Anti-corrosive.
- Smooth finish.
- Strong construction.
- High performance.
- Precise design.
- Long lasting nature.

BUGBEE ELECTRODE

- Monopolar flexible bugbee electrodes are used in cystoscopes, resectoscopes or ureteroscopes for coagulation/ablation of tissue.
- Size: 3fr To 9fr
ENDOSCOPIC ACCESSORIES

TURNER WARWICK RING RETRACTOR

- Turner warwick ring retractor is also called as Turner Warwick Retractor, Ring Retractor, Urological Retractor. Turner warwick ring retractor comes along with 6 blades and J Needle SET.

- Sizes: Medium Size
  Large Size

HEY GROOVE DILATOR SET

- Hey groove dilator set contains 4 no. dilators.

- Sizes: 4 / 7, 8 / 11, 11 / 14, 14 / 16
MALE URETHRAL DILATOR SET

- Male urethral dilator set contains 12 Dilators.

- Sizes: 28/32, 26/30, 24/28, 22/26, 20/24, 18/22, 16/20, 14/18, 12/16, 10/14, 8/12, 6/10

- Available:
  Male urethral dilator set - With Gide Wire Passing.
  Male urethral dilator set - Without Gide Wire Passing.

HEY GROOVE DILATOR SET

- Male urethral dilator set contains 12 Dilators.

- Sizes: 28/32, 26/30, 24/28, 22/26, 20/24, 18/22, 16/20, 14/18, 12/16, 10/14, 8/12, 6/10

- Available:
  Male urethral dilator set - With Gide Wire Passing.
  Male urethral dilator set - Without Gide Wire Passing.
FEMALE URETHRAL MEATAL DILATOR SET

- Hegar Dilator SET contain 10 Dilators.
- Female Urethral Meatal Dilator SET / Hegar Dilator is also called as Hegar Uterine Dilator Set and Hegar Double-End Cervical Dilator.

FEMALE URETHRAL TEFLOM DILATOR SET

- Female urethral Teflon dilator SET contain 5 Teflon Dilators.

Sizes: 13/14, 11/12, 9/10, 7/8, 5/6
